1 INTRODUCTION

Per audit recommendation, this procedure aims to minimize the risks associated with access to high privilege information on the 5213 – Compass Legacy application. Users with access to create, modify, and delete user data must be identified and attested by their manager.

2 SYSTEM REQUIREMENTS

- Copy or subscription to the IIQ report for 5213 Compass
 - Received from: Gestion-Identites-Acces@bnc.ca
 - Email Subject Line: Rapport de gardiennage
 - Attachment File Name: Rapport_Validation_App_5213_NBIN_Compass
 - Access Request: <https://jira.bnc.ca/servicedesk/customer/portal/225>
- Outlook
- Microsoft Excel
- Access to the Product Support Sharepoint site
- SQL Management Studio View Only Access, or
 - Citrix Access
 - Citrix Site: <https://apps.citrix.bnc.ca/logon/LogonPoint/tmindex.html>
- Tech Titans Jira: <https://jira.bnc.ca/servicedesk/customer/portal/2323>

3 GENERATING THE USER LIST VIA SQL MANAGEMENT STUDIO

The report can be generated by a user with SQL Management Studio access or requested through the Tech Titans Jira service portal.

The file below contains the queries required to generate this report.

Sample File: C:\Users\ASTK001\OneDrive - Banque Nationale du Canada\NBIN Product Support - General\Compass R2\Access Certification\High Privilege Access\ HPA Quarterly Review as of 2025 11 17.xlsx

Query Protection Password: ProductSupport2025

1. Create a new excel spreadsheet with 5 sheets.
 - a. Sheet1
 - b. Sheet2
 - c. Sheet3
 - d. Sheet4
 - e. Sheet5 renamed to the Quarterly HPA Report
2. Run each query and paste into its own sheet.
3. On sheet5, combine all 4 sets of data using VLOOKUP. Specifically:
 - a. Copy and paste the entire sheet 1 into sheet5.
 - b. On column H – last login date:

=VLOOKUP(A2,Sheet2!A:B,2,FALSE)

- c. On column I – Transit:

=VLOOKUP(B2,Sheet4!B:V,21,FALSE)

- d. On column J – Manager:

=VLOOKUP(B2,Sheet4!B:AH,33,FALSE)

- e. On column K – Security Signing Officer:

=VLOOKUP(A2,Sheet3!A:C,2,FALSE)

- f. On column L – Super Security Signing Officer:

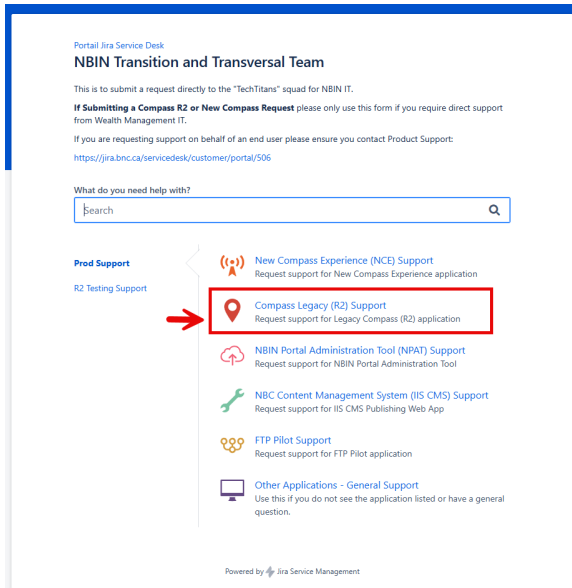

=VLOOKUP(A2,Sheet3!A:C,3,FALSE)

4. Apply the formulas on all rows for the entire user list.
5. Flatten the table.

6. Apply a filter on the table.
7. Apply a filter on column K – Security Signing Officer to select only blank cells.
8. Apply a filter on column L – Super Security Signing Officer to select only blank cells.
9. Delete the rows that are left after the filters applied in 7 and 8. Remove all filters.
10. Sort the table by column M – Manager.

4 GENERATING THE USER LIST VIA TECH TITANS JIRA

1. Go to the service portal: <https://jira.bnc.ca/servicedesk/customer/portal/2323>
2. Select Compass Legacy (R2) Support

3. Add the following information in the required fields:

A screenshot of the Jira Service Desk form for 'Compass Legacy (R2) Support'. The form is titled 'Compass Legacy (R2) Support' and includes a warning: 'Please do not submit any requests for new accounts via this portal. For account requests, please contact Product Support'. The form has several required fields marked with an asterisk: 'Raise this request on behalf of' (with a dropdown menu showing 'Katrina Authrologo'), 'Summary' (with a text input field), 'Priority' (with a dropdown menu showing 'Medium'), and 'Description' (with a text area). There is also an 'Attachment' section with a dashed box and a 'Create' button at the bottom.

Summary: Query Request – High Privilege Access User List

Priority: Medium

Description:

Hi team,

Please generate a user list with the following columns of data:

- ID
- UserID

- FirstName
- LastName
- EmailAddr
- CompanyName
- CreateDate
- login_last_date
- 171 - Portal/MemberFirm/SecuritySigningOfficer
- 174 - Portal/MemberFirm/SuperSecuritySigningOfficer

Conditions of inclusion to the user list:

- Active users only, and
- Homepage: Compass, and
- Firm group is:
 - NATIONAL BANK FINANCIAL INC., or
 - NATIONAL BANK TRUST, or
 - NBIN, or
 - NBIN (Operations)
- And the user has the role:
 - (SSO) Security Signing Officer, or
 - (SuperSSO) Super Security Signing Officer, or
 - Both SSO and SuperSSO

Note: If needed, please share the query included in the appendix.

4. Click on Create.

5 DOCUMENT RETENTION

1. Save the generated report at: [High Privilege Access](#)
\\NBIN Product Support - General\Compass R2\Access Certification\High Privilege Access
2. Within the corresponding year and quarter folder
3. File naming convention:
“HPA Quarterly Review as of YYYY MM DD” where YYYY MM DD is the date the data was extracted.

6 ACCESS REVIEW & DOCUMENTATION

1. Use the template below to notify and request information from each manager. Record the responses in excel file and keep the email responses.
2. If the response from the manager is to remove the access, remove the HPA and confirm back to the manager. Record the action taken on column M – Access Status as “Access Removed”.
3. If the response from the manager is to keep the access, record the action taken on column M – Access Status as “Access Maintained” and make a note of the rationale for keeping the access in column N - Access Purpose – Manager to Provide Details.
- 4.

7 EMAIL TEMPLATE

Subject Line: Quarterly High Privilege Access Review - Compass Legacy

Hi <Manager's Name>,

To improve our compliance with the bank's access policies we are currently reviewing High Privilege access to Compass Legacy. High Privilege access is defined as access to create, modify, delete and view internal/external users within the Manage Firm Users/Portal Super Steward panel of Compass Legacy.

TOOLS & APPS

The screenshot shows a grid of tools and apps. The 'Manage Firm Users' tool is highlighted with a red box and a red arrow pointing to it from the right. The tools listed are:

- Commission Calculator (+)**: The commission calculator is designed to calculate the base commission your... [Launch Tool »](#)
- Delayed Quotes (-)**: Quotes displayed in real time or with 15 minute delay. Market Data provided... [Launch Tool »](#)
- Dividend Reinvestment Program (+)**: Provides a listing of DRIP plans offered by NBIN, as well as details on the... [Launch Tool »](#)

 - Transition Routing Table
- Update Portal Users**
 - Edit Client profile and email pref.
 - User Linked to RepCode Search
 - Vacation Stop Report

These users within your team currently have access to perform these functions:

<insert table relevant to the manager>

FirstName	LastName	EmailAddress	CompanyName	login_last_date	Transit	Manager	Access Purpose – Manager to Provide Details

Please complete the final column for each user and provide a justification for why access to this function is required.

Please let me know if you have any questions. A response is needed to maintain the user's access to these permissions. The permission will be removed if no response is received by end of business day **Friday, November 28th**.

Thank you!

8 CONSULTATION WITH RISK

For managers who has chosen to maintain their team's high privilege access, consult with the Risk Team Leanne Morgan to determine if the access is justified.

9 KNOWN TEAMS & EXCEPTIONS

Transit/Employee	Manager	Notes
